

Sister Introduction

Sister is a beautiful little film from Parable Dance based in Brighton in the uk. And Parable Dance is really very unusual because it has a sister company based in New York. And the two Artistic Directors developed these companies and, um, training programs together, and then they work internationally. The film was made during the pandemic with no funding, uh, just with passion and love and dance, and it's about connection and sisterhood between two of the dancers who dance in Parable, UK.
